William Shakespeare

One of the Greatest English Writers

Shakespeare's vision was a complex one, but it can be said to be centered on the human condition. He was interested in exploring the full range of human emotions, from love and joy to hatred and despair. He was also interested in the ways in which people interact with each other and with the world around them.

VOTING

In a **democracy**, everyone gets a say in how the country is run.

Sometimes the **government** asks the people directly what they want, but most of the time they rely on **elected representatives** to make decisions that reflect the general population's wishes.

These representatives are chosen by people **voting** for them in **elections**.

Voting is like a superpower.

It lets you pick the people who make the rules and decisions about things that matter to you, like:

- **Parks and playgrounds**
- **Schools and libraries**
- **Rubbish and recycling**
